BORN TO BE WILD

In order to meet the market demand of the growing popularity of pickup truck and suv off-road vehicles in asia market in recent years, wheelplus co. ltd was established in 2015 to researched, designed, produced and patterned the monsterims® off-road wheel.

we, team-mor pride ourselves in our ability to stand out from the numerous competitors and pretender alike in the market by aesthetics and function that desire by the off-road enthusiasts. from our dedicated team researched and understanding in the off-road market, either in stock or lifted truck today, the monsterims® off-road wheels must be innovative and available in variety of fitments.

Our devoted Team-MOR of designers, engineers and marketers pushing the limits every day to bring the Monsterims® brand to the next level in off-road development. Monsterims® off-road wheels maiden debut at the 2015 Japan Tokyo Auto Salon was the first voyage into the challenging off-road market in Asia. No turning back since. The following years we exploring and come out with lots of stunning style that more suitable to Asia market fitments and preferences. The understanding of Asian local off-road market scene make Monsterims® a prefer choices for distributors and off-road players.

Year 2018, Monsterims® make our presences feel in the Asia off-road market. We kick start our campaign in Bangkok Auto Salon then Shanghai Auto Salon and closing with a bang in Manila Auto Salon. Monsterims® also participated by invitation in numerous international wheels show in South America.

We at Wheelplus Co. Ltd committed to keep on innovating and pushing the Monsterims® off-road to become a sensation in Asia and beyond.

Monsterims[®]

OFF-ROAD

The Monsterims Off-Road Wheel brand represents the distinctive in Style, Unique and Quality. The strength of Monsterims Off-Road wheels have been attained by applying the latest analytic technologies. Using creative output, the team places a lot of importance on high quality and how it represent the brand to the world. Choose your width, offset, and any of Monsterims Off-Road's color options.

Due to the challenging business environment and huge demands by wheel enthusiasts, Team Monsterims were collaborating with dealers worldwide to design, engineer and produce the Monsterims Customize Series. Monsterims Customize stands out from all the pretentious off-road wheels that are flooding the local market with questionable qualities.

PERFORMANCE WHEEL

To produce a really perfect and long-lasting wheel, it is essential to have a top-quality casting blank. Our TX Series Wheel focused on the sedan vehicles and uses the low-pressure aluminum casting technique to manufacture our base alloy wheels. As with all our products, the stiffness to weight ratio is also achieved with our cast wheels.

It uses daring designs to create new standards in wheel design helping drivers to create their own world.
